

TINO HACKS III

2018 

SPONSORSHIP PROSPECTUS

WHAT IS TINOHACKS?

TinoHacks III is a 29-hour hackathon run by Cupertino High School students, primarily directed towards high schoolers in the Bay Area. Last year, TinoHacks II took place at 42 US in Fremont. Over the past two years, TinoHacks has hosted 15 mentors and 600 applicants out of which 19 percent were female and 22 percent were first-time hackers, who created a total of 65 projects in 24 hours. We would not have been able to do this with the help of our 25 sponsors. This year, we hope to expand our event to a broader audience and continue to inspire high schoolers to make their innovative ideas a reality. TinoHacks III will be taking place on April 20-21, 2019. Some of Silicon Valley's most talented and ingenious students will gather and put their heads together to create pioneering solutions to challenges that exist in our world today. TinoHacks III aims to provide students with a brilliant environment to develop their entrepreneurial and coding expertise.

WHY SPONSOR TINOHACKS?

TinoHacks III is completely organized by a team of highly dedicated high school students who are committed to helping people explore their passion for programming. If your company chooses to sponsor TinoHacks III, you will be given the opportunity to positively impact numerous students, as well as share your ideas with the engineers, entrepreneurs, and programmers of tomorrow. Along with receiving a first look into the future of technology, you will also be given an option to provide any resources such as, but not limited to APIs, prizes, and mentors, all of which play a crucial role in inspiring participants. Though TinoHacks may not be able to offer the same recruiting options as that of a college hackathon, our sponsors will still be given the precious opportunity to interact and form relationships of great value with the developers of the future.

WHERE WILL YOUR MONEY GO?

The money will go towards paying for food, swag, prizes, venue, and anything needed to make TinoHacks III the best experience it can be for hackers, mentors, and sponsors. Funds will be dedicated solely to achieve this. TinoHacks III is supported by Hack Club, a 501(c)(3) registered nonprofit organization and the official fiscal sponsor for TinoHacks III. Please take note that all funds made to Hack Club on behalf of TinoHacks III are tax deductible.

OTHER WAYS TO SUPPORT TINOHACKS

- Send mentors or tech evangelists to aid participants in their projects
- Sponsor a meal (4 meals will be served at the event) or a snack
- Provide hardware or software tools for hackers
- Send final round judges
- If you have any questions or ideas, email us at hello@tinohacks.tech
